PROFESSIONAL SUMMARY

Software Engineer with strong foundations in Data Structures & Algorithms and experience building scalable systems using MERN stack and AWS. Proven ability to optimize performance and design high-availability backend architectures.

EDUCATION

Noida Institute of Engineering and Technology **July 2022 – June 2025**
Bachelor of Technology in Computer Science and Engineering - ***CGPA - 7.87*** *GB Nagar, India*

Government Polytechnic Barabanki **July 2018 – August 2021**
Diploma in Electronics Engineering - ***Percentage - 77.43%*** *Barabanki, India*

TECHNICAL SKILLS

Languages : C/C++, C#, Python, SQL, HTML, CSS, JavaScript
Core CS Concepts : Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Frameworks/Libraries : .Net Core, .Net Web App, React.js, Node.js, Express.js, Tailwind CSS, Socket.io
Databases : MySQL, MongoDB, DynamoDB
Cloud & DevOps : AWS (IAM, Lambda, API Gateway, S3, EC2), Azure Cloud, Azure DevOps
AI & Automation : Gemini API Integration, Prompt Engineering, GitHub Copilot
Developer Tools : Git, GitHub, Visual Studio, VS Code, Eclipse

EXPERIENCES

Gencoft Technologies **February 2025 – August 2025**
Software Engineer Intern *(Remote)*

- Revamped the UI/UX of quizwizard.net, increasing user engagement by 30%, and developed AWS Lambda functions for location-based Stripe payment gateway integration, improving scalability and compliance.
- Built and deployed a robust payment infrastructure for manageupgrades.com with AWS API Gateway, Lambda, and DynamoDB, reducing payment-related support tickets by 25%.
- Designed and launched a cross-platform Flutter app integrating Fitbit Web API and Apple HealthKit, enabling real-time activity sync across 95% of devices and engaging over 1,200 daily users.

PROJECTS

Binkeyit - E-commerce Application

React.js, Node.js, MongoDB, Express.js, Tailwind CSS **December 2025**

- Architected a scalable full-stack solution using the MERN stack, implementing RESTful APIs and optimized database schemas to ensure high availability and seamless data flow.
- Integrated Stripe Payment Gateway using Webhooks to handle secure checkout sessions and real-time payment confirmation, resulting in a 25% increase in successful transaction rates.
- Boosted user retention by 30% by designing a responsive, mobile-first interface with Tailwind CSS and automating personalized email notifications via Resend.

Quiz Application

React.js, Node.js, MongoDB, Express.js, Tailwind CSS, Socket.io **January 2025**

- Developed a multiplayer quiz app with MERN stack & WebSockets, supporting 100+ users and boosting session time by 40%.
- Designed an interactive UI with Tailwind CSS & Redux, improving user engagement by 25%, and deployed the backend on Render/Railway to support WebSockets.
- Implemented JWT-based authentication and optimized MongoDB indexing to support persistent sessions and real-time leaderboard updates, reducing load time by 35% and increasing retention by 18%.

EXTRACURRICULAR

- Participated in the Smart India Hackathon 2023 Grand Finale.
- Completed a 5-day 'IDE Startup Bootcamp' conducted by the MoE Innovation Cell and AICTE.
- Winner of IoTRON 2.0 at Noida Institute of Engineering and Technology.
